

# Correct Time Study Example

The image shows a screenshot of a time study form with two entries. Each entry has a 'Time' field, an 'Activity Code' field, and a 'Description' text area. The first entry is for 'HOOR 1 - 0 min' with activity code 'A: Direct Medical & Other Medicated Services' and description 'Group Session with Client'. The second entry is for 'HOOR 1 - 15 min' with the same activity code and description. A red arrow points to a 'Copy Previous Response' button (represented by a document icon) in the top right corner of the second entry's form.

If you are doing an activity for a period of time, you can use the ‘Copy Previous Response’ button to prepopulate the notes and activity code for the next increment.
