

# Correct Time Study Example

The screenshot displays two rows of a form used for time study. Each row contains a 'Time' dropdown, an 'Activity Code' dropdown, and a 'Description' text area. The first row shows 'HOOR 1 - 0 min', 'A: Direct Medical & Other Medicated Services', and 'Group Session with Client'. The second row shows 'HOOR 1 - 15 min', 'A: Direct Medical & Other Medicated Services', and 'Group Session with Client'. A red box highlights a 'Copy Previous Response' button (represented by a document icon) in the second row, with a red arrow pointing to it from the text below.

If you are doing an activity for a period of time, you can use the ‘Copy Previous Response’ button to prepopulate the notes and activity code for the next increment.
